P50-DS15PA Dynasty USA 15" Powered PA Speaker Retail \$795.00

- Ruggedly built to withstand life on tour the DS15PA can endure all the elements met by working outside on the marching band or drum corps field. The DS15PA can also be used in the concert hall or indoor percussion theater.
 - High impact polymer injection molded case.
 - Speaker is light-weight with a handle and is easy to carry.
 - Speaker has wide range, low distortion and high sensitivity.
 - The high frequency driver has a titanium diaphragm with a light mass voice coil with ferro-fluid coiling.
 - Bi-amplified circuit features low distortion and high efficiency.
 - Two balanced mic/line inputs.
- One balanced output providing one signal to another speaker.
 - There is a high quality polypropylene condenser, flame proof resistor with a less inductance design dividing frequency and response to protect and avoid driver damage.
 - Net weight 63 pounds.
 - Dimensions are 29" x 15" x 20".

P50-DMC100 Dynasty USA Dynamic Cardioid Microphone Retail \$145.00

- Rugged construction, a proven shock mount system and a steel mesh grille ensure that even with rough handling the DMC100 will perform consistently. Outdoors or indoors music or speech - the DMC100 is the choice of marching bands, drum corps and your indoor ensemble.
- Cardioid (unidirectional) dynamic microphone.
- Frequency response designed for brightened midrange and bass depth.
- Built-in spherical wind and pop filter.
- Cardioid pickup pattern isolates the main sound source while minimizing unwanted background noise.
- Frequency response 50Hz to 15kHz
- Dynamic/ unidirectional
- Includes an on/off switch

Dynasty[®] USA

P50-DS15SW Dynasty USA 15" Active Powered Sub Woofer **Retail \$895.00**

- The DS15SW is the perfect companion for either the DS15PA powered speaker. The DS15SW offers powerful low frequencies in a compact, durable enclosure at an affordable price. Great on the marching band or drum corps field.
- When you combine the DS15SW with the DS15PA you have a full range sound system whose clarity, volume and low end are amazing considering their small size. Because the power amp and crossover are internal to all Dynasty USA speakers set up time is minimized. Just plug in and play.
- High impact polymer injection molded case.
- Speaker is light-weight with a handle and is easy to carry.

P50-DMC105 Dynasty USA Large Diaphragm Drum Microphone **Retail \$295.00**

- The DMC105 is a high-performance microphone tuned to capture low-end punch.
- Designed frequency response is smooth and extended.
- Tuned specifically for outdoor and indoor large drum applications.
- Cardioid polar pattern picks up the most sound from in front of the microphone and some sound from the sides. The DMC105 is less susceptible to feedback in high volume settings.
- Dynamic cartridge has a simple, rugged coil. Handles extreme volume levels without distortion.
- Durable metal construction.
- Integral stand mount.
- Hardened steel mesh tapered grille that resists wear and abuse.

Dynasty[®] USA

P50-DMC115 Dynasty USA Small Diaphragm Cardioid Microphone Retail \$395.00

- The DMC115 is perfect for a number of micing jobs where space is tight or low visibility is desired. Supplied with Dynasty USA's versatile mounting clip the low-profile DMC115 is an exceptional cardioid condenser microphone designed for to brass, reeds, piano, snare, toms, and violin.
- The DMC115 microphone offers a crisp, clear, well-balanced response. Its cardioid polar pattern reduces pickup of sounds from the side and rear for effective protection against feedback.
- The mounting clip permits accurate positioning, provides shock resistance and protects against the elements.
- Frequency response: 30-18,000 hz
- Open circuit sensitivity: -65 db + 3db
- Impedance: 250 ohms +30% @1000 Hz
- Maximum input sound level: 135 db spl, 1 khz at 1% t.H.D.
- Signal-to-noise ratio: Over 65 db
- Output connector (power module): Integral 3-pin XLRM-type.
- Weight 5oz.

P50-DMC110 Mini Condenser Drum Microphone Retail \$295.00

- The DMC110 is a small-diaphragm cardioid condenser microphone that excels in a variety of studio and live situations. Its wide frequency response makes it ideal for micing overhead drums as well as vocal performances.
- Low-profile design for optimal mic placement.
- Gold-plated XLRM-type connector.
- Cardioid polar pattern reduces pickup of sounds from the sides and rear improving isolation of desired sound source.
- Phantom Powered.
- Frequency Response: 70Hz ~ 17000Hz
- Output Connector (Power module) Integral 3-pin XLR Male type
- Impedance: 250 ohms +30% @ 1000Hz
- Polar Pattern: Unidirectional

P50-DB1624 Dynasty USA 16/24 Channel Mixer
Retail \$1995.00

- The DB1624 is the mixer for all your outdoor and indoor marching needs! With high head room and low noise, the DB1624 is the mixer for all marching activities - versatile, durable, with a sound quality far above any other mixer this size you've ever worked with!
- The DB1624 is a great example of Dynasty's "built like a tank" construction. The rugged steel main chassis holds up to the punishment that constant touring on the marching band, drum corps or indoor tour can dish out. The long-life 43mm faders will perform well whether it's your first practice or your 300th performance.
- 16/ 24 mono input channels with gold plated XLR and balanced line inputs.
- Ultra-low noise discrete MIC preamps with +48 **phantom power**.
- Extremely high head room offering more dynamic range with low noise.
- 2 stereo input channels with balanced TRS jacks.
- 1 additional multi-functional stereo line input.
- balanced inputs for the highest signal integrity.
- Ultra-musical 3 band equalizer on all channels with sweepable mid-range.
- 2 auxiliary sends per channel for external effects and monitoring.
- separate main mix control room and headphone outputs.
- high-accurate 9 segment bar graph meters.
- high quality 45mm faders and sealed potentiometers.

P50-DB1604 Dynasty USA 6 Channel Notebook Mixer Retail \$295.00

- 6-12 mono input channels with gold plated XLR and balanced line inputs with +48 **phantom power**.
- 2-4 stereo input channels. XLR for the Mic and stereo L/R input channels TRS jacks for CD or tape.
- Mono channels EQ: High, mid and low.
- Stereo channels EQ: High, high mid, low mid and low.
- Auxiliary and Effects Channels: Aux1, AUX2, EFF1 and EFF2.
- L/R Pan
